When print projects get complex, Magnispot comes to the rescue

Simplification, in order to help you save time and money, that is the objective of our SaaS marketing hub **Magnispot**. What if you could configure and streamline your print projects, by easily connecting your PIM system and other datasources through **Magnispot** to different kind of marketing channels. Let your design team focus on the lay-out of your printwork instead of entering and verifying data manually.

Functionality features

- Configure and compile datasets from all entities
- Add formulas to transform data
- Add editorial content
- Push multiple entities in one XML
- Push multiple languages in one XML
- Online xml-preview

User experience
